## GARRY KASPAROV

Nov.04  
**Garry Kasparov on My Great Predecessors, part III** ©©  
Garry Kasparov  
(hardback)  
480 pages, 250x175mm  
1-85744-371-3, €39,40

This magnificent compilation of play from the 1960s through to the 1970s forms the basis of the third part of Garry Kasparov's long-awaited definitive history of the World Chess Championship. Garry Kasparov, who is universally acclaimed as the greatest chessplayer ever, subjects the play from this era to a rigorous analysis – the examination being enhanced by the use of the latest chess software. This volume features the play of champions Tigran Petrosian (1963-1969), Boris Spassky (1969-1972) and Bobby Fischer (1972-1975).

However, this book is more than just a compilation of play from the greats of this era. Kasparov's biographies of these champions place them in a fascinating historical, political and cultural context. Kasparov explains how each champion brought his own distinctive style to the chessboard and enriched the theory of the game with new ideas.

**Garry Kasparov** is generally regarded as the greatest chessplayer ever. He was the thirteenth world champion, holding the title between 1985 and 2000.

## Susan Polgar

Nov.04  
**Breaking Through: How the Polgar Sisters Changed the Game of Chess** ©©  
Susan Polgar with Paul Truong  
(hardback)  
325 pages, 250 x 175mm  
1-85744-381-0, €31,30

Susan Polgar provides a candid inside view of the lives of the Polgar sisters. She takes readers through the incredible development of the three sisters as they pursued their dreams: becoming chess prodigies, growing into contenders, winning World titles and Olympiad gold medals, ending the Soviet dominance in women's chess, breaking through the gender and age barriers, and generally revolutionising the game.

Another important issue covered is the strict but ultimately successful training techniques used by the Polgar sisters in their chess evolution. This volume wouldn't be complete without a marvellous compilation of the Polgar sisters' most stunning chess games, providing a move-by-move explanation of their best and most memorable encounters.

Susan Polgar is a genuine chess legend. The eldest of the three celebrated Polgar sisters, she's a 4-time Women's World Champion and a triple Olympic Champion.

FIDE Master Paul Truong is a former chess prodigy and was champion of Vietnam before fleeing his country in a small boat and eventually reaching America. He is captain and business manager of the 2004 US Women's Olympiad Team.

Alex Raetsky and Maxim Chetverik  
128 pages, 234x156mm

Mikhail Tal was simply a chess phenomenon. The 'magician from Riga' stunned the chess world when he became the youngest ever World Champion (at that time) in 1960, and he won countless supporters for his scintillating tactical play and his infectious enthusiasm for the game. Tal's dazzling tactical style would often leave his hapless opponents in a state of 'shell-shock'. As former World Champion Vassily Smyslov once noted, 'Tal's appearance in chess had the effect of an exploding bomb, since his style of play was distinguished by extraordinary combinative brilliance.'

In this book Alexander Raetsky and Maxim Chetverik revisit Tal's brilliant victories. The authors have carefully picked his most famous and instructive games and combinations, ones which set the chess world alight with admiration. A study of this tactical genius is sure to entertain and benefit the aspiring chess student.
